

Sexual and reproductive health care is an integral and routine aspect of family medicine.

At RHEDI, we believe every family medicine residency program should include didactic and clinical training in contraception, pregnancy options counseling, hands-on abortion training, and pre- and post-abortion care. RHEDI provides resources and technical assistance to establish **fully integrated abortion training** at residency programs.

What is fully integrated abortion training?

- A required (opt-out) rotation in options counseling, medication abortion, miscarriage management, and contraception care.
- Procedural and medication abortion training on-site or at high-volume site.

About RHEDI

RHEDI's mission is two-fold:

- Integrate high quality, patient-centered abortion and contraception training and services into U.S. family medicine residencies using the Reproductive Justice framework.
- Mainstream abortion provision within family medicine.

RHEDI is committed to...

- Demonstrating respect and trust for every patient's autonomy and decisions.
- Preserving and promoting safe and accessible abortion and contraception services that are free of judgment, stigma, and financial and legal barriers, regardless of location.
- Resisting systemic patterns of racism and white supremacy in sexual and reproductive health (SRH) care.
- Teaching full-spectrum SRH care informed by a human rights framework that uplifts and advocates for Reproductive Justice principles, and acknowledges the complexity of intersectional identities and experiences.

RHEDI RESOURCES

Residency Program Support

Learn how RHEDI can help your program establish abortion and contraception training. rhedi.org/how-to-become-a-rhedi-program

RHEDI Scholars Program for Workforce Diversity

Aimed toward engaging and supporting under-represented minorities in medicine, this year-long program connects scholars with mentors, workshops, and funding for professional conferences. rhedi.org/rspwd

Workshops and Grand Rounds

Our workshops and grand rounds speakers cover a wide range of abortion, contraception, miscarriage, and Reproductive Justice topics. We also offer on-site and remote educational sessions for prospective, current, and graduated RHEDI programs, as well as partner organizations. These sessions may include training for staff, resident didactics, and faculty development workshops. rhedi.org/workshops

Abortion Training Roadmap

Interested in abortion training opportunities? We can help connect you with electives, fellowships, and other training opportunities. Referral request: rhedi.org/train

Access List and Forum

A private forum for family medicine clinicians, teachers, and learners to discuss clinical, administrative, advocacy, policy, and educational issues. Topics include mentorship and technical assistance in abortion and contraception care, clinical management, and career planning.
